

Money Puzzle Tour for Korea

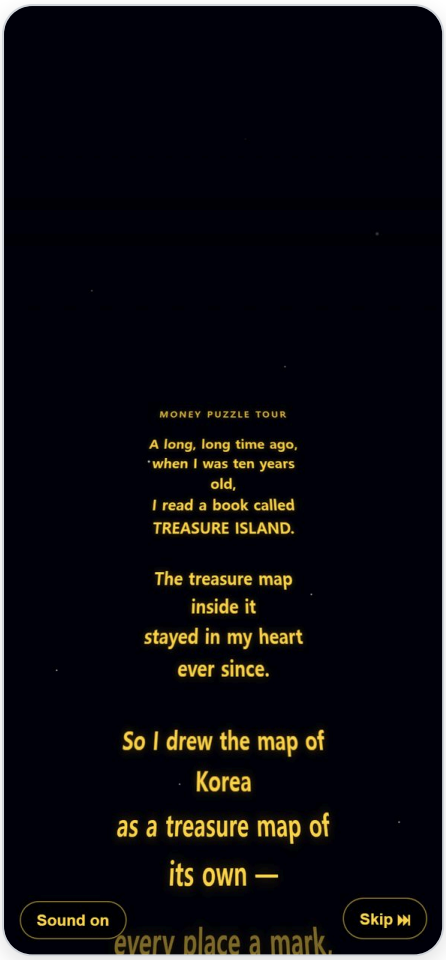

User Manual

Just scroll up and down like a webtoon — plan your whole trip on one screen.

You can open this manual any time from the Library on the app map (near Gwanghwamun). Screens as of October 2026; the app may look slightly different. Map pictures show approximate locations — check the exact spot on the detailed map.

1

Opening story

When you first open the app, the “Treasure Island” story scrolls by. Tap “Skip” (bottom right) to go straight to the map, or “Sound on” for music. Tap the treasure island on the map to watch it again.

2

The home screen

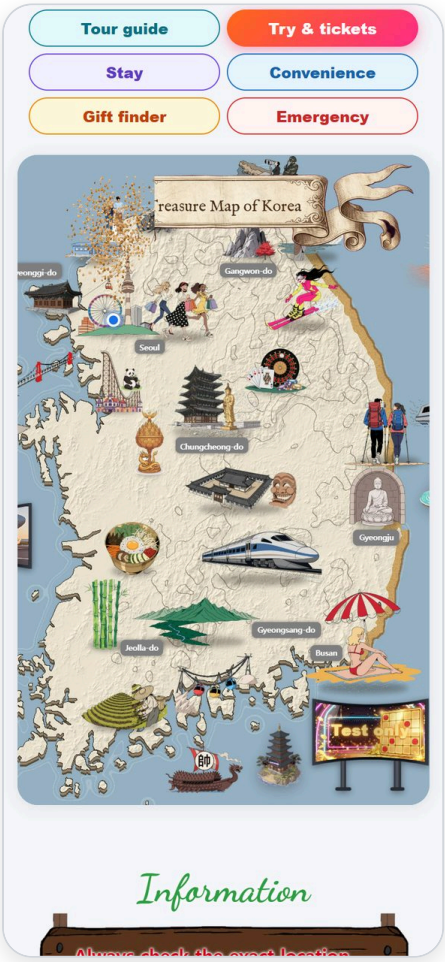

The top bar has My trip (cart), Reset, the globe (language), the speech bubbles (interpreter), night mode and the ⋮ menu. Below are the search box, the “Search” and “Get ideas” buttons, six menu buttons and the treasure map. Just scroll up and down.

3

Change the language

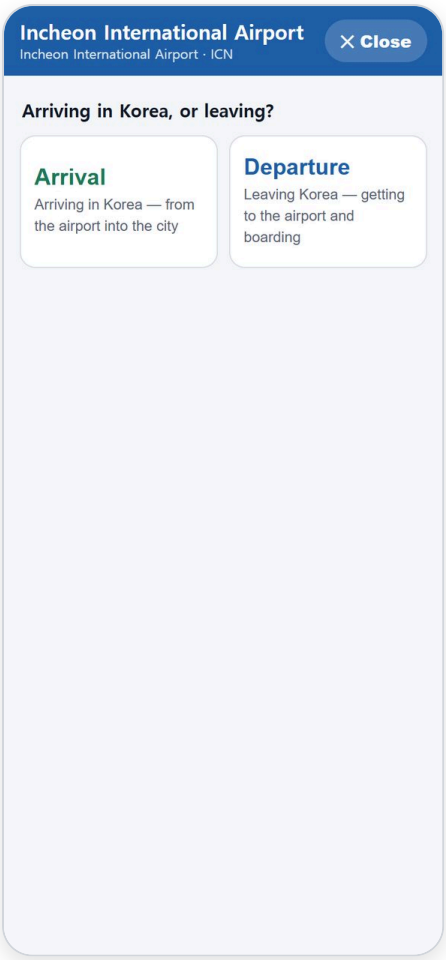

Tap the globe in the top bar to choose 한국어, English, Español, 日本語, 简体中文 or 繁體中文. The screen you are on switches to that language right where you are.

4

The treasure map of Korea

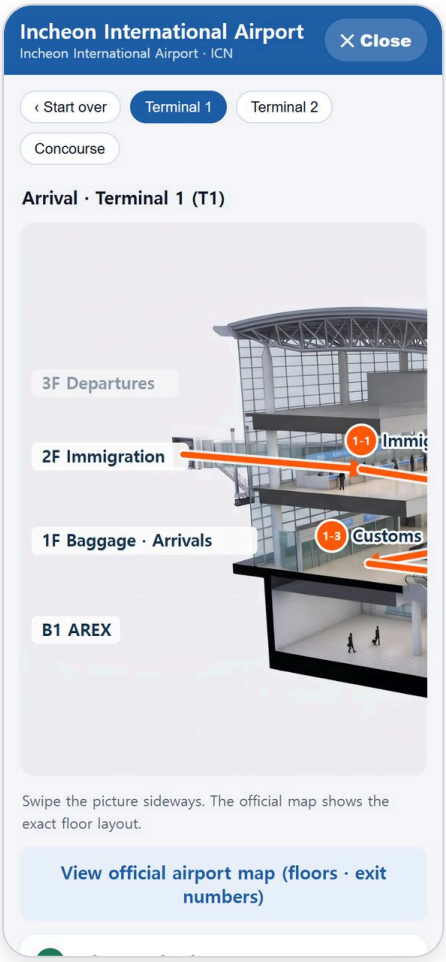

All of Korea appears as an illustrated map. Swipe with one finger to scroll the page. Pinch with two fingers to zoom; once zoomed in, drag with one finger to look around the map. Tap a picture to open that sight's card. Tap a region name (Seoul, Gangwon-do…) to enter that region's map.

5

Airport screen

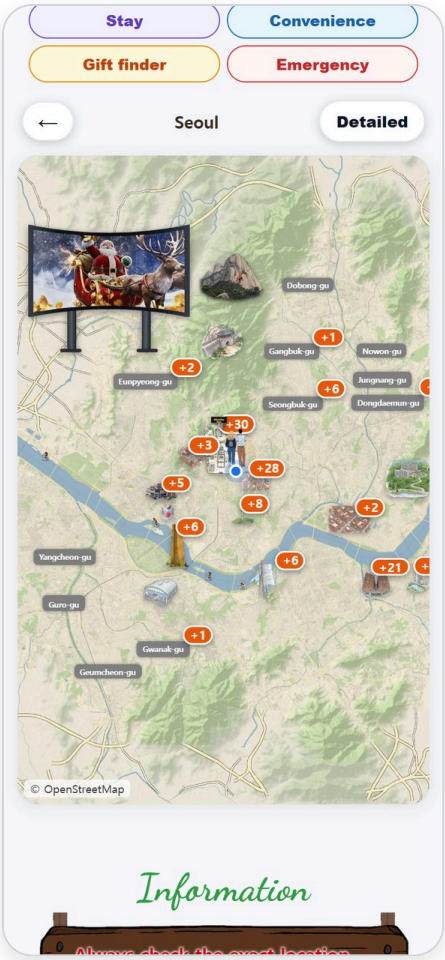

Tap the Incheon Airport picture on the national map (or the Gimpo Airport picture on the Seoul map) to open the airport screen. First choose “Arrival” (arriving in Korea) or “Departure” (leaving Korea). Tap ✕ Close to return to the map.

6

Step-by-step by terminal

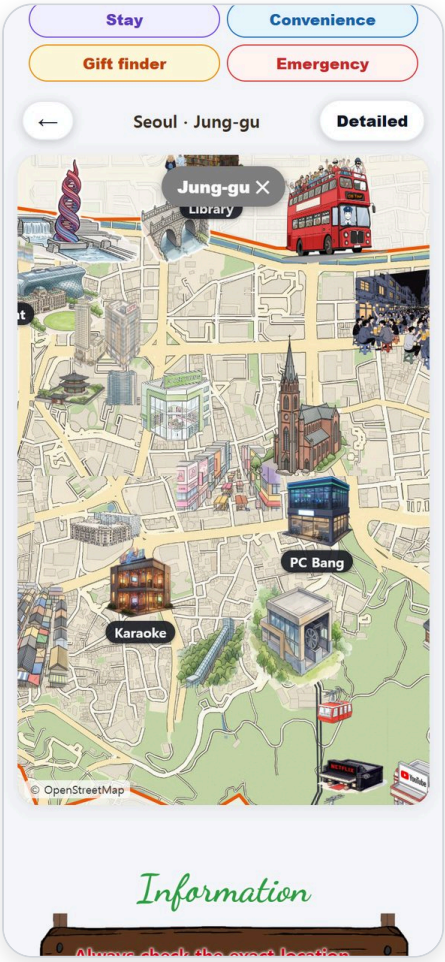

Pick your terminal (Terminal 1 or 2 at Incheon; International or Domestic at Gimpo) to see every step on one page — from leaving the plane through immigration, baggage claim, airport railroad, bus and taxi, or from arriving at the airport to boarding. “Official airport map” shows floors and exit numbers.

7

Region maps (e.g. Seoul)

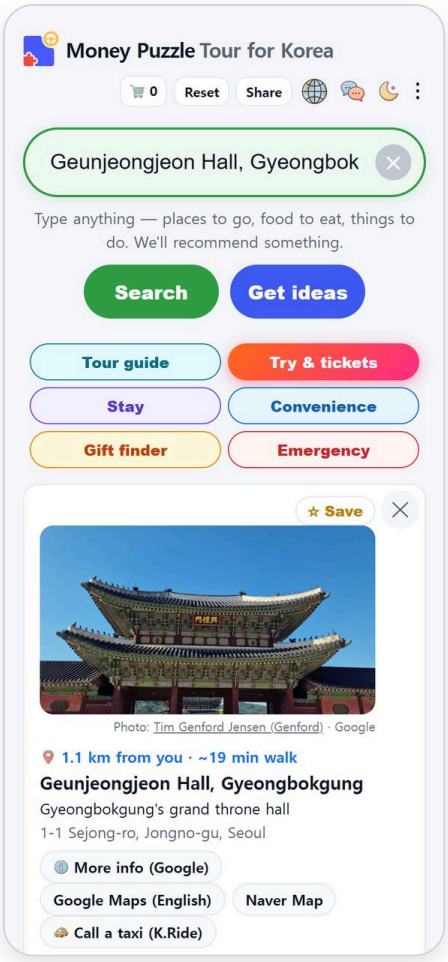

Each district shows a main picture and "+number" (how many sights it has). Tap a district picture or name to enter its map. Use ← (top left) to go back; "Detailed" opens the real street map.

8

District maps

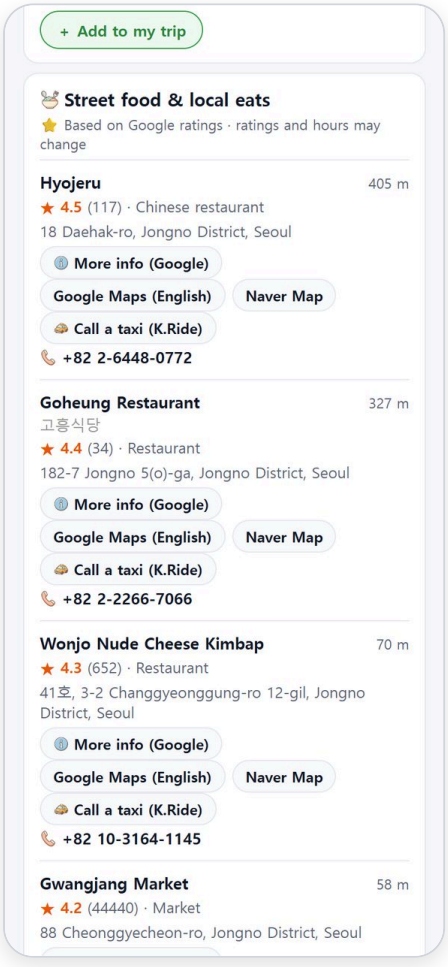

A district map shows its sights as pictures in their real places. Tap a picture to open its card. Tap the district name × at the top to go back to the region map.

9

Place cards

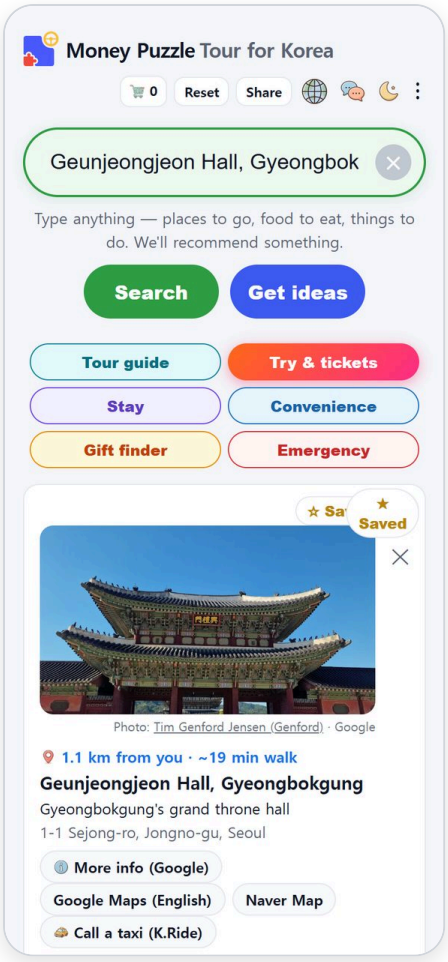

A card shows a photo, the distance from you, a short description and the address, with buttons for more info (Google), Google Maps / Naver Map directions and calling a taxi (K.Ride).

10

Shops inside streets & markets

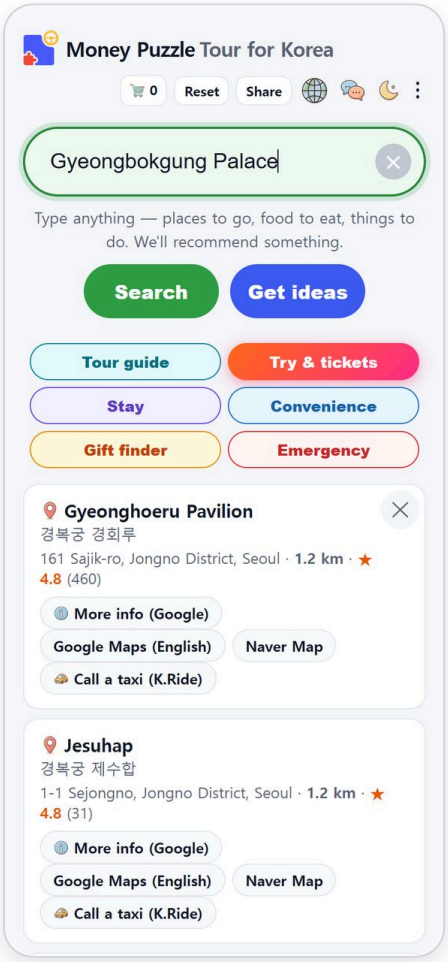

Tap a wide sight such as a market or street (e.g. Gwangjang Market, Myeongdong) and the shops inside it appear under the card, sorted by Google rating and distance, each with directions, taxi and call buttons.

11

☆ Saved places

Tap "☆ Save" at the top right of a card to save it. You can also long-press the map to save any spot. Saved places gather below the map and stay only on your phone.

12

Search

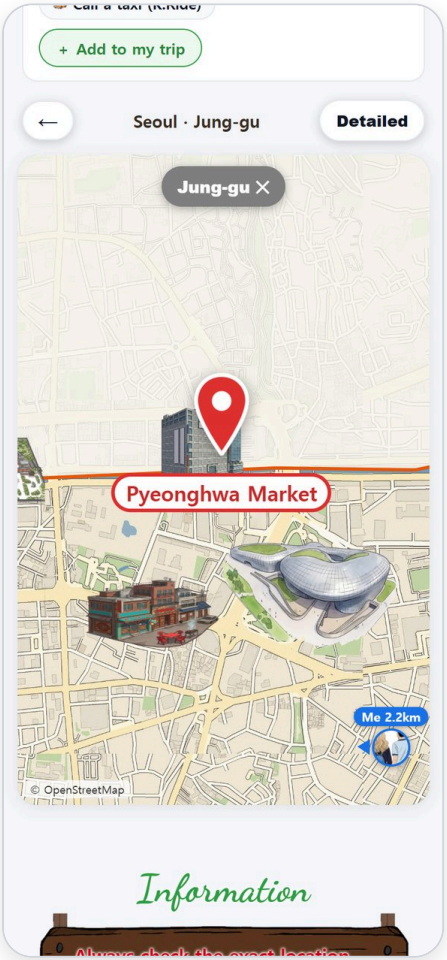

Type any place or food in the search box and tap "Search". Small spelling mistakes are fine. Tap a result to drop a pin on the map.

13

A red pin where you picked

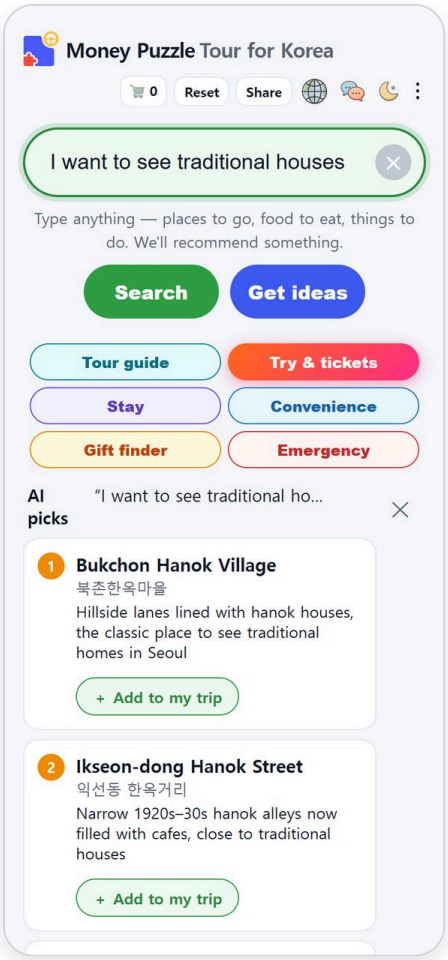

Pick a place in the results and the app opens the district map that contains it, with a red pin and name tag on the exact spot. Even for sights with a picture, the pin sits on top so you can tell which one it is.

14

Places without a picture

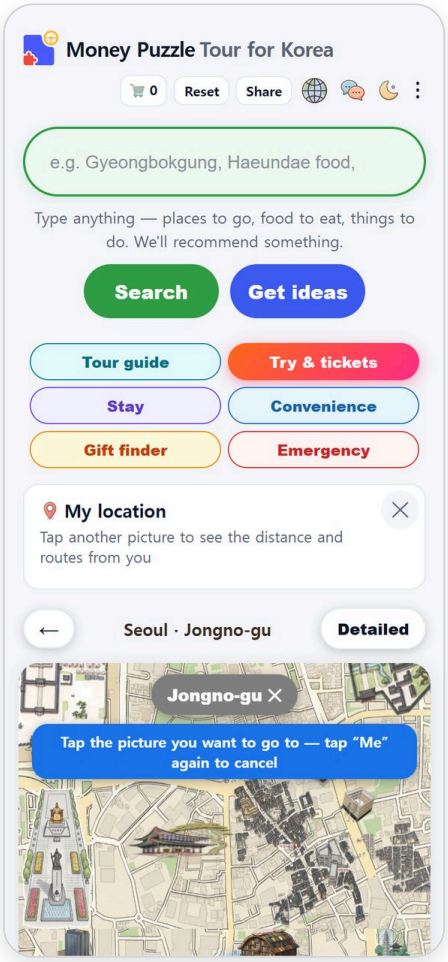

Even places with no picture on the map (e.g. Pyeonghwa Market) are shown with a red pin on the exact spot of the district map in Seoul. Outside Seoul, the pin goes on that region’s map.

15

Get ideas with AI

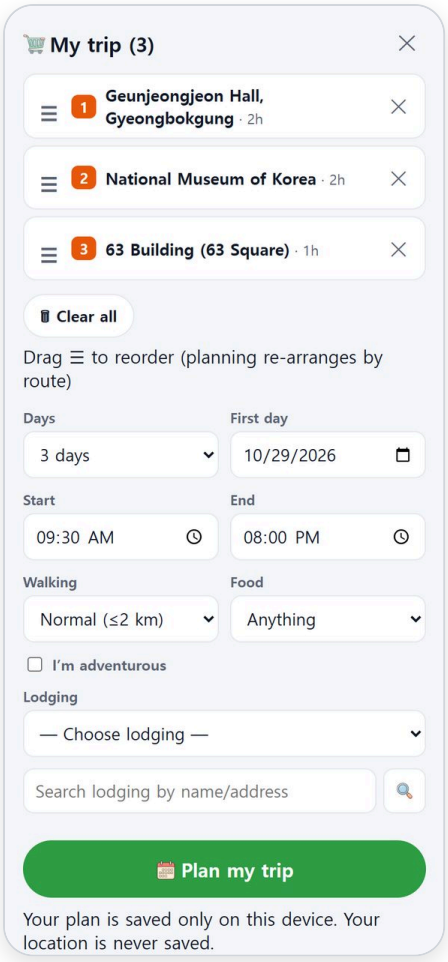

Write what you'd like to do (e.g. "I want to see traditional houses") and tap "Get ideas". AI picks sights with reasons. Add them straight to your trip with " + Add to my trip".

16

My location ("Me")

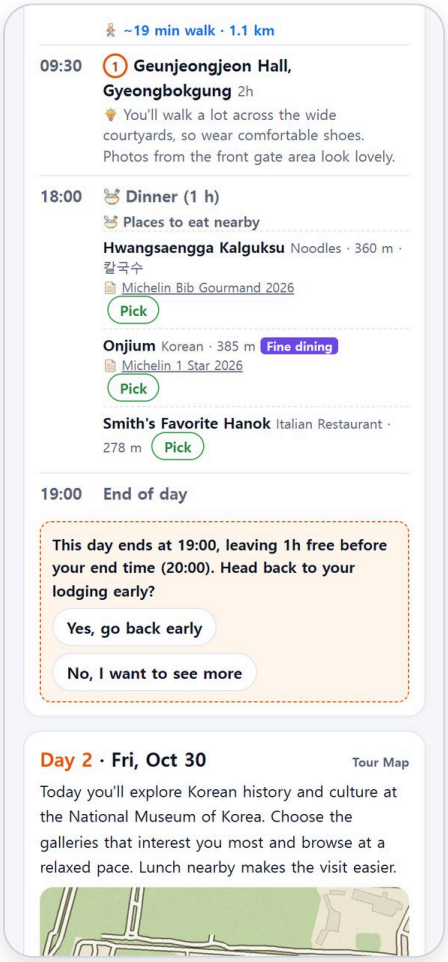

Tap "Me" at the bottom right of the map to show where you are (allow location). Then tap the picture you want to go to for distance and routes. Your location is never saved.

17

Build my trip

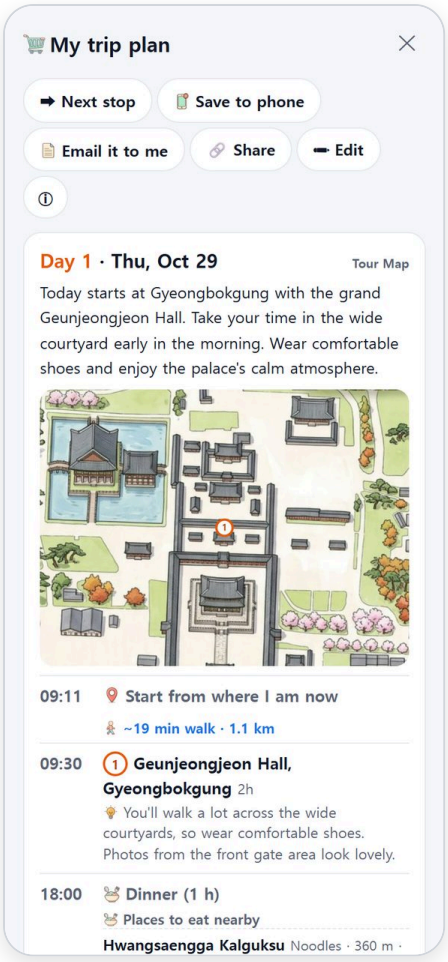

Use " + Add to my trip" on cards; the cart number in the top bar goes up. Tap the cart to see your list and drag ☰ to reorder. Choose days, hours, walking, food and lodging.

18

Plan my trip with AI

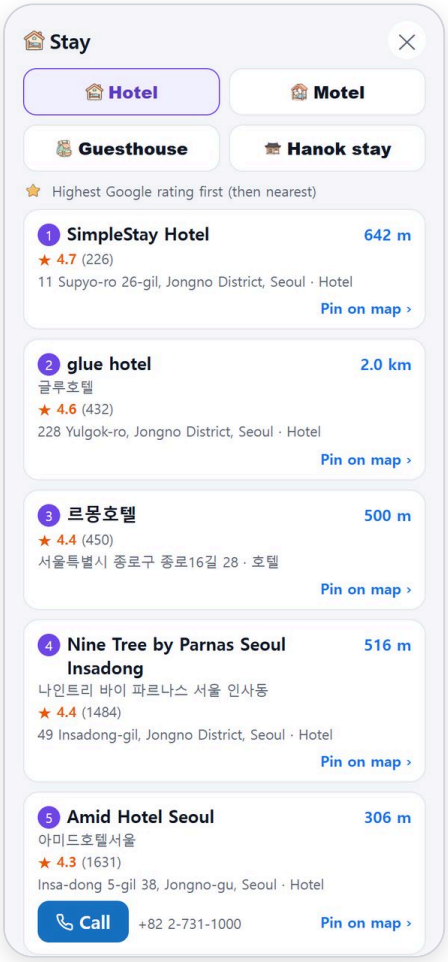

Tap "Plan my trip" for a day-by-day plan from your lodging — routes, travel times and lunch/dinner places, with tips.

19

Save as PDF, email, share

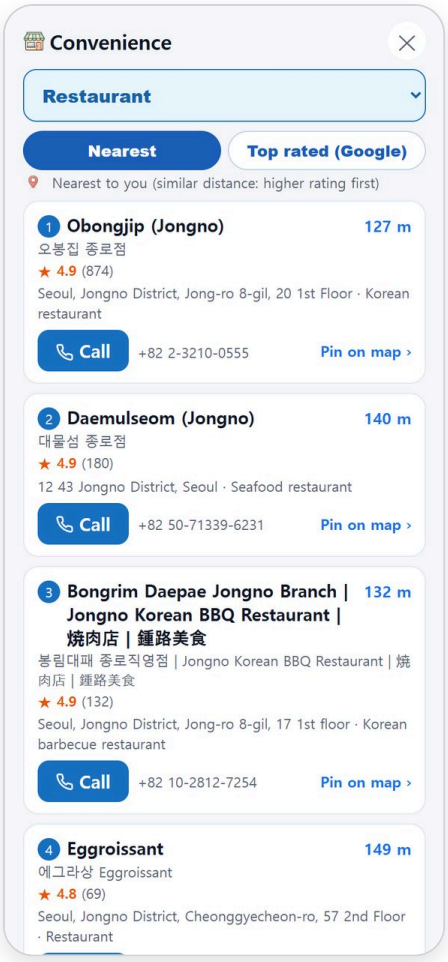

Keep your plan with “Save to phone” (PDF), “Email it to me” or “Share”. “Next stop” guides you to the next place; “Edit” lets you adjust it.

20

Stay

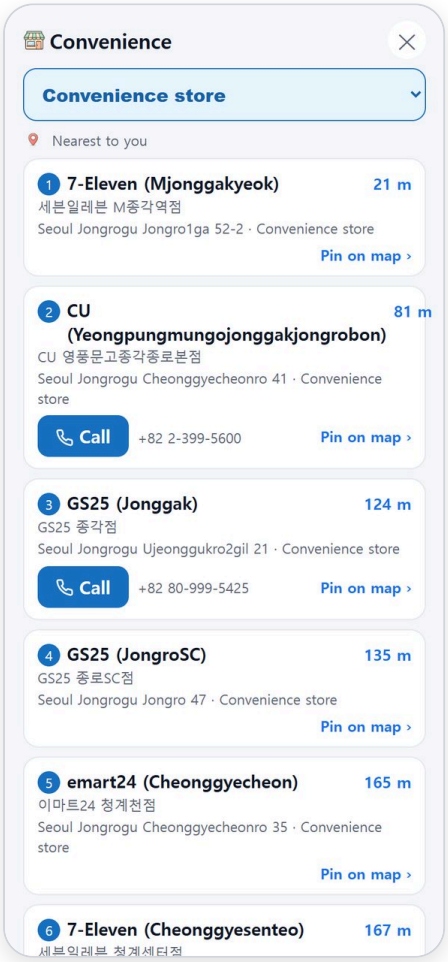

In “Stay”, choose Hotel, Motel, Guesthouse or Hanok stay to see nearby places sorted by Google rating (then distance), with Call and Pin on map buttons.

21

Restaurants

In “Convenience”, choose “Restaurant” to see places to eat within 1.5 km. Switch between “Nearest” and “Top rated (Google)”.

22

Convenience

In “Convenience”, pick what you need from the box at the top — convenience store, toilet, ATM, currency exchange and more — and the nearest ones appear first. “Pin on map” shows them on the map.

23

Try & tickets

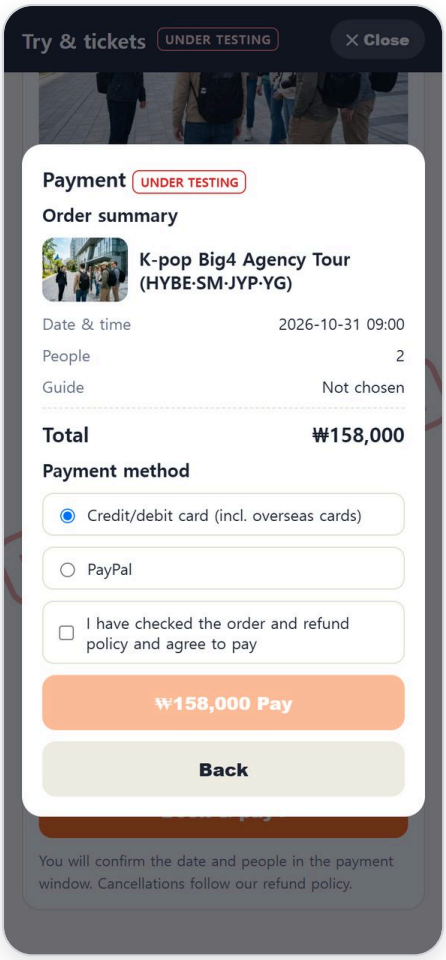

Tap “Try & tickets” to see guided Korean experiences with photos. Choose a theme with the chips at the top (K-POP, sightseeing, beauty, hair, food, shows, wellness) and tap the product card you like. Products marked “Sample · coming soon” are still being prepared.

24

Choose guide, date and time

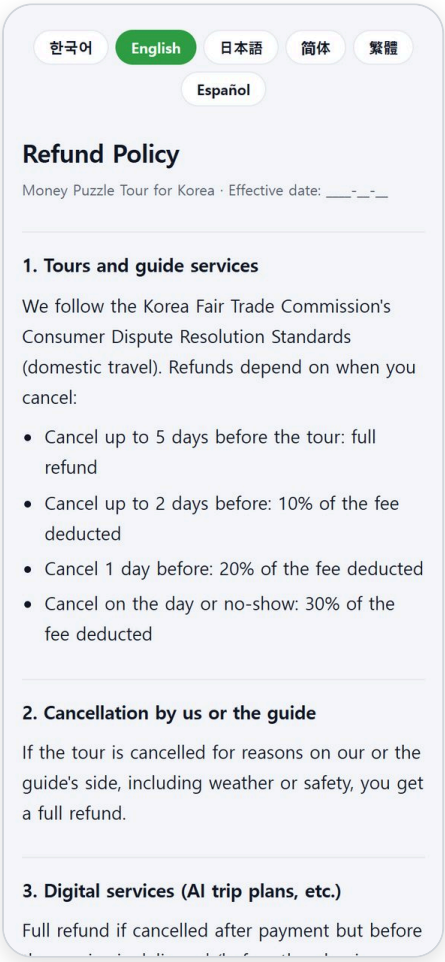

After choosing a product, (1) tap a guide language to see guides who speak it and pick one. (2) In Book & pay, set the date, time and number of people and the total appears right away. Tap “Book & pay” to go to the payment window.

25

Payment window (test run)

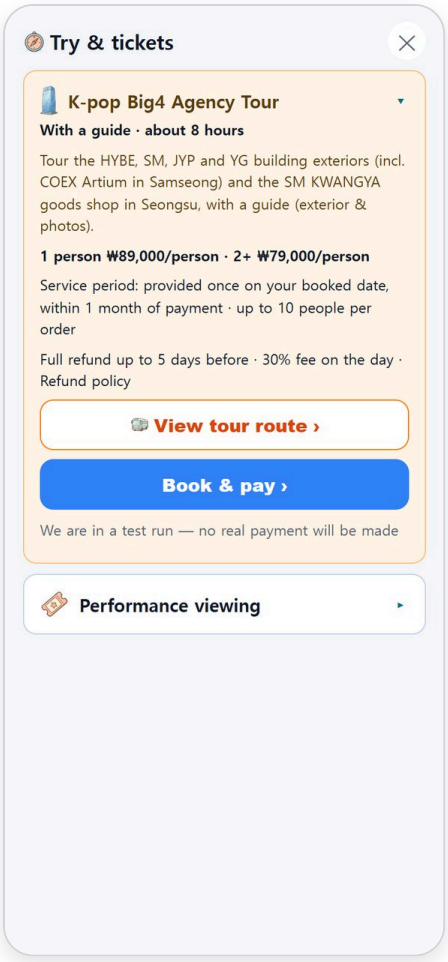

The payment window shows your order with the chosen date and time, number of people, guide and total. Choose a payment method (credit/debit card or PayPal), tick the agreement and pay. We are in a test run — no real payment is made.

26

Refund policy

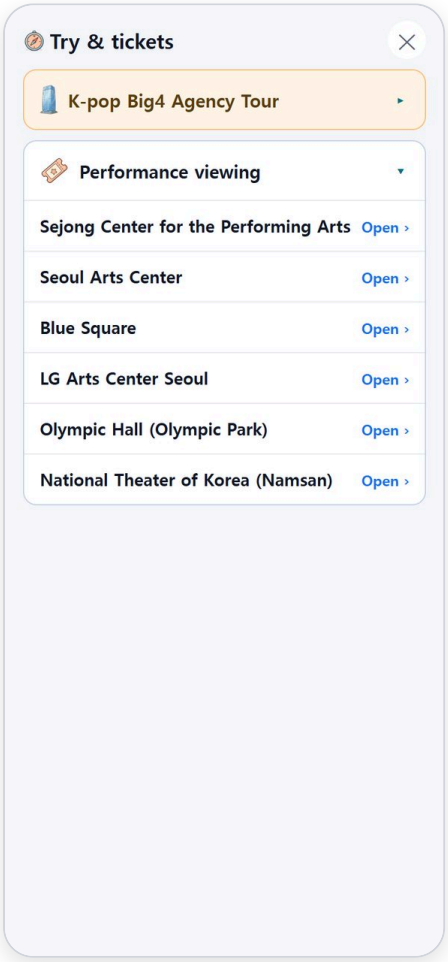

The refund policy in 6 languages. Experiences and tours are fully refunded up to 5 days before; after that a fee applies depending on the date. You can also open it from “View full refund policy” in the karaoke Notice.

27

K-pop Big4 Agency Tour route

Close the Try & tickets screen with ✕ and you will find the "K-POP Big4 Agency Tour" card below. It is a one-day guided tour of the HYBE, SM, JYP and YG building exteriors and the SM KWANGYA store; tap "View tour route" to see the route through all five stops on the map.

28

Performance viewing

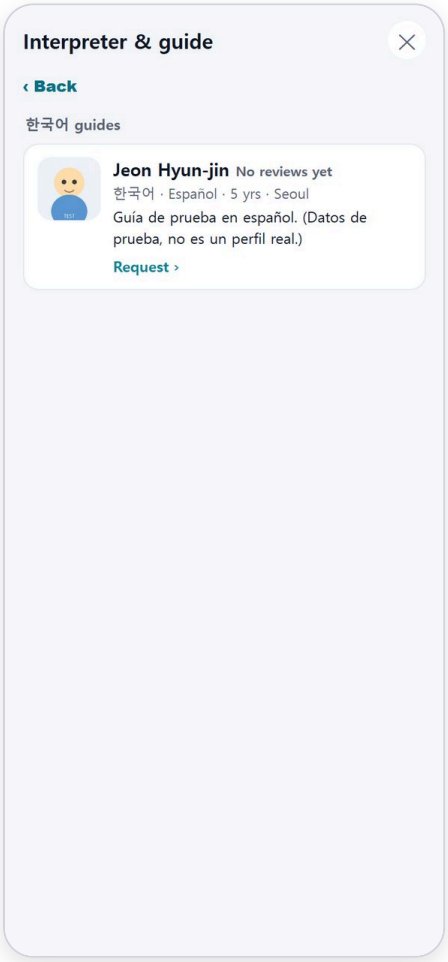

Choose the "Performance viewing" product in Try & tickets, or open the card below, to see current shows at Sejong Center, Seoul Arts Center, Blue Square, LG Arts Center, Olympic Hall and the National Theater. Tap "Open" to go to the real ticket site.

29

Interpreter & guide

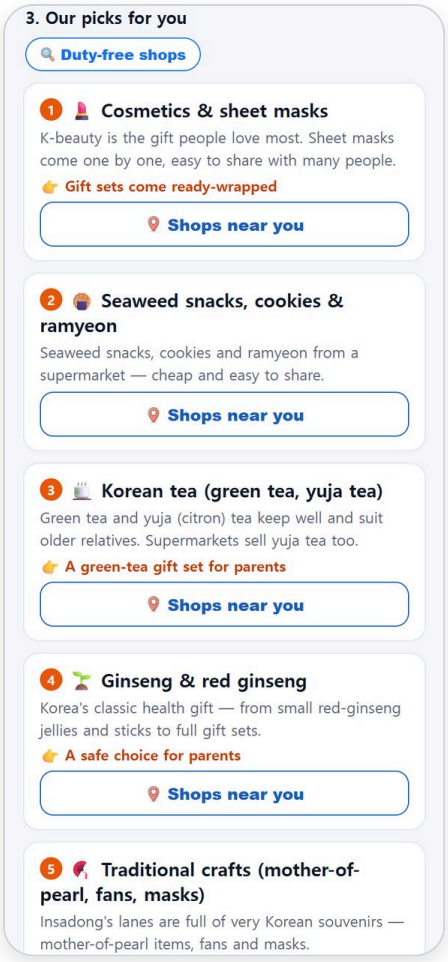

In “Tour guide”, choose the language you need to see licensed interpreter-guides (Korea Tour Guide license checked). Guides can use “Are you a guide? Edit my profile” at the bottom.

30

Guide list

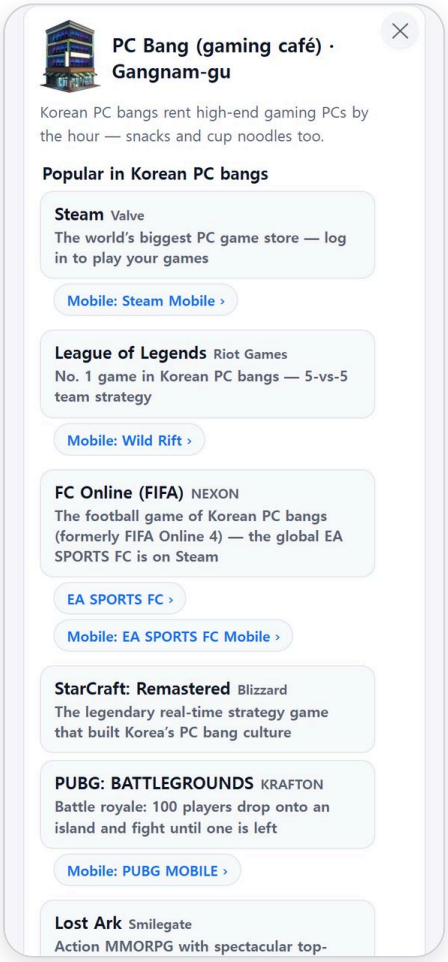

Choose a language to see guides who speak it. Names are shown in your screen language (romanized for English), with languages, years of experience and area. Pick a guide to request.

31

Gift finder

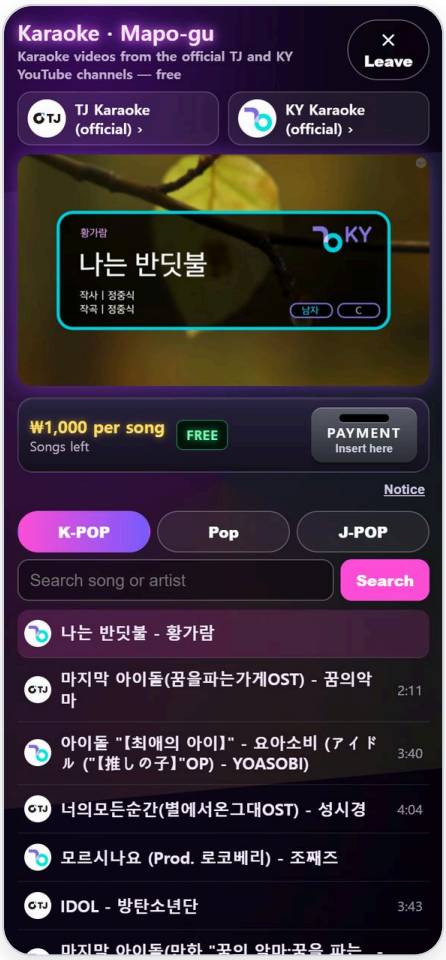

In “Gift finder”, tap who it’s for, your budget and the kind of gift; it suggests Korean gifts and finds “Shops near you” where you can buy them.

32

PC Bang (gaming café)

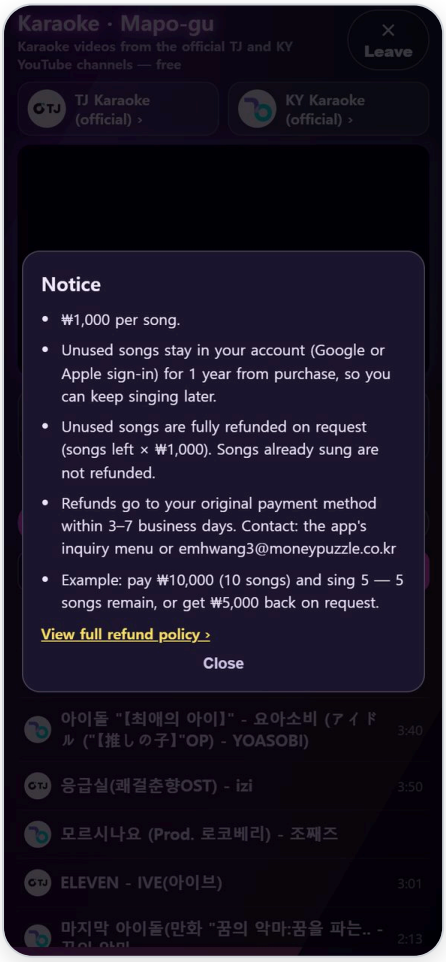

Each of Seoul’s 25 districts has a PC bang picture near its busiest station. Tap it for Steam and the official sites of popular Korean games (PUBG, Lost Ark, Black Desert, MapleStory and more), followed by real PC bangs in that district sorted by Google rating and distance.

33

Free karaoke

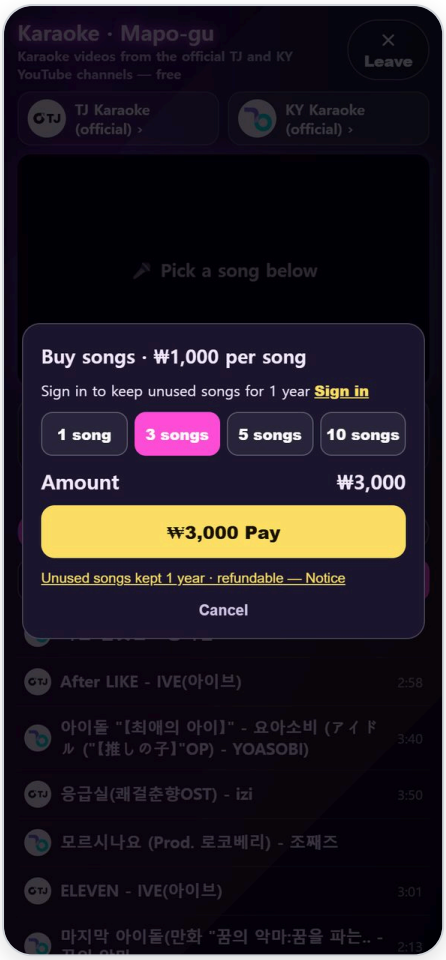

Tap the karaoke picture in any district to open a dark karaoke-room screen. Pick karaoke videos from the official TJ and KY YouTube channels by the K-POP, Pop or J-POP tabs or by search, and sing for free. The channel buttons at the top open the official channels.

34

Karaoke notice

Tap “Notice” under PAYMENT on the karaoke machine to read the karaoke rules: ₩1,000 per song, unused songs kept in your account for 1 year, unused songs refundable, plus “View full refund policy”.

35

Buy songs · songs left · refund request

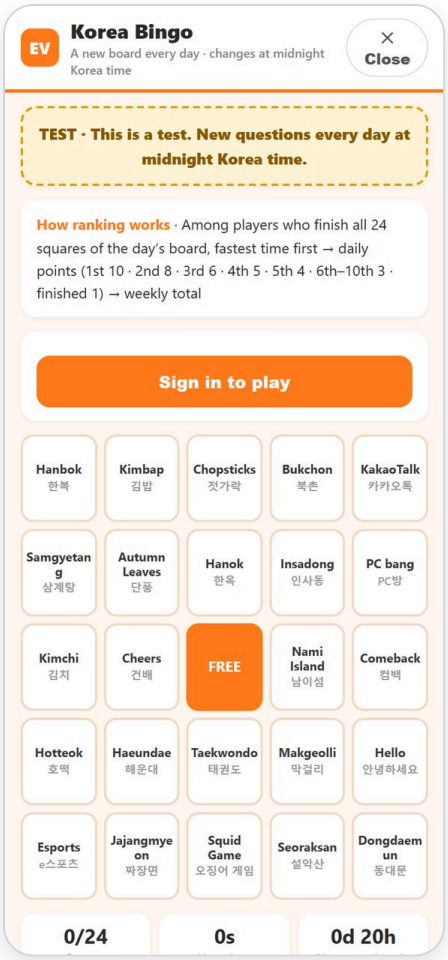

Tap PAYMENT to open the Buy songs window. Pick 1, 3, 5 or 10 songs to see the amount. Sign in with Google or Apple to see your songs left; when you have songs left, a refund request button appears. While the karaoke partnership is being prepared, singing is free and no payment is taken.

36

Event Island

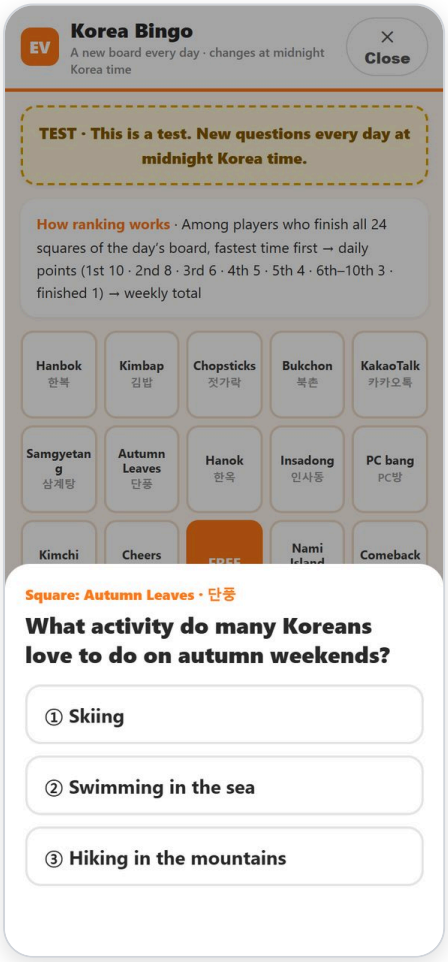

On the national map, in the southern sea next to the turtle ship, is the Event Island. The sign on the tower shows whether an event is open, and the billboard beside it shows today's event. Tap the island to open the event screen.

37

Daily Korea Bingo

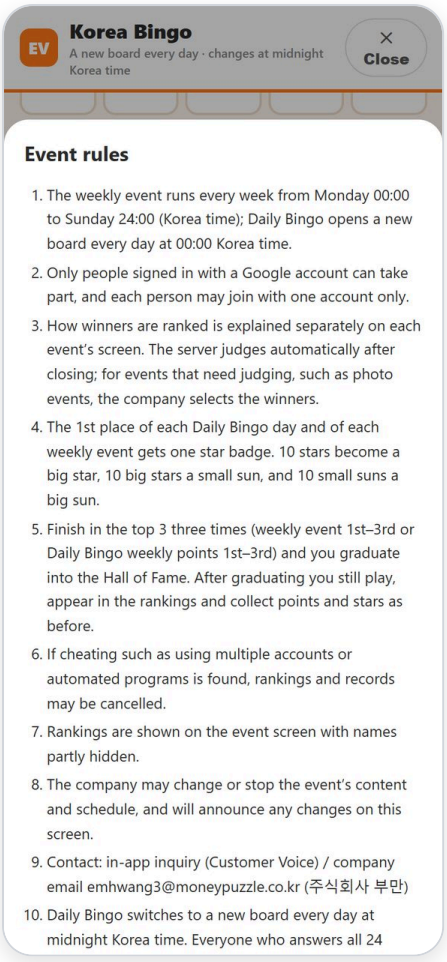

The 5×5 board has a Korean word in each of its 24 squares (the center is FREE). Sign in with Google or Apple and agree to the event rules to join. A new board opens every day at midnight Korea time, and the ranking goes by who fills all 24 squares fastest that day. Your time is shown like "2 min 50 s".

38

A 3-choice question in each square

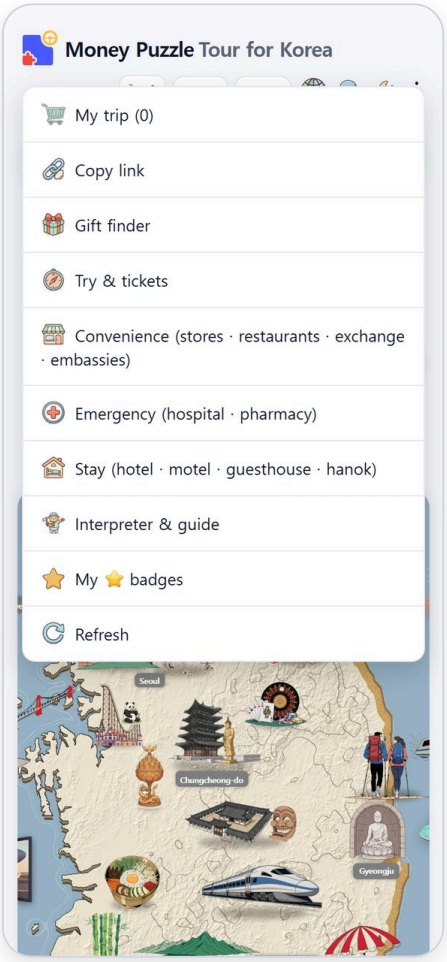

Tap a square to see a question about that word with three choices. A right answer stamps the square; a wrong one marks it "TRY AGAIN" so you can answer again. Tap "New board" whenever you want a fresh board — it opens right away. You can play up to 12 boards a day; after your third board, the next one opens after a 5-minute break.

39

Event rules

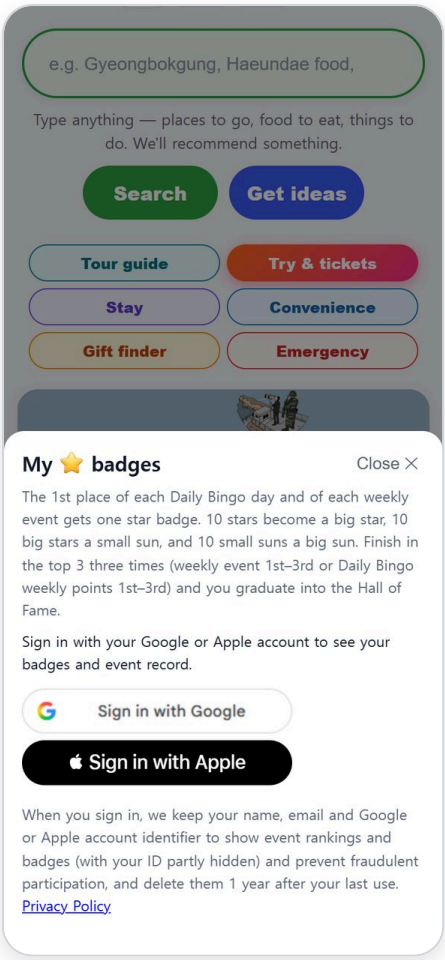

Tap “Event rules” at the bottom of the event screen to read all the rules: how to join, how the ranking works, badges and how unfair play is handled. The first time you join, you tap “Agree and join” on these rules.

40

The ⋮ menu

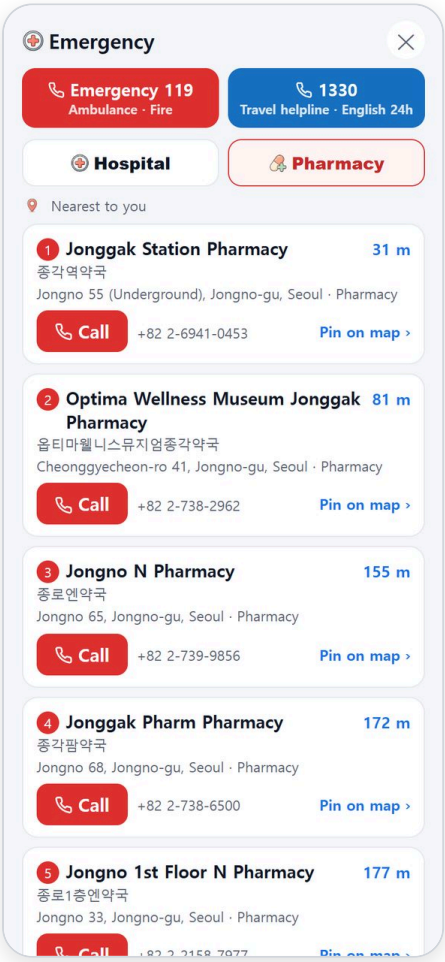

Tap ⋮ at the right end of the top bar to open the menu. From here you can jump to your trip cart, copy the link, Gift finder, Try & tickets, Convenience, Emergency, Stay, Interpreting & directions, My star badges and Refresh.

41

My star badges · sign in

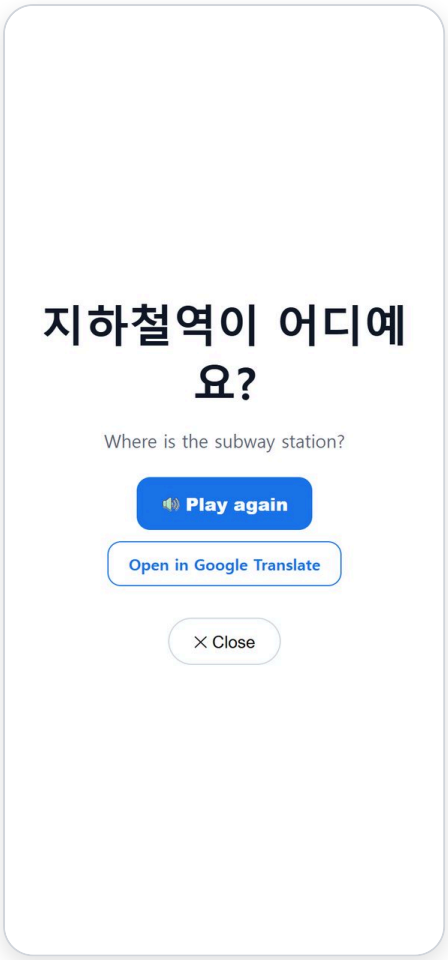

Use “My star badges” in the ⋮ menu to sign in with your Google or Apple account. The 1st place of each Daily Bingo day and of each weekly event gets one star badge. 10 stars become a big star, 10 big stars a small sun, and 10 small suns a big sun. Finish in the top 3 three times to enter the Hall of Fame.

42

Emergency

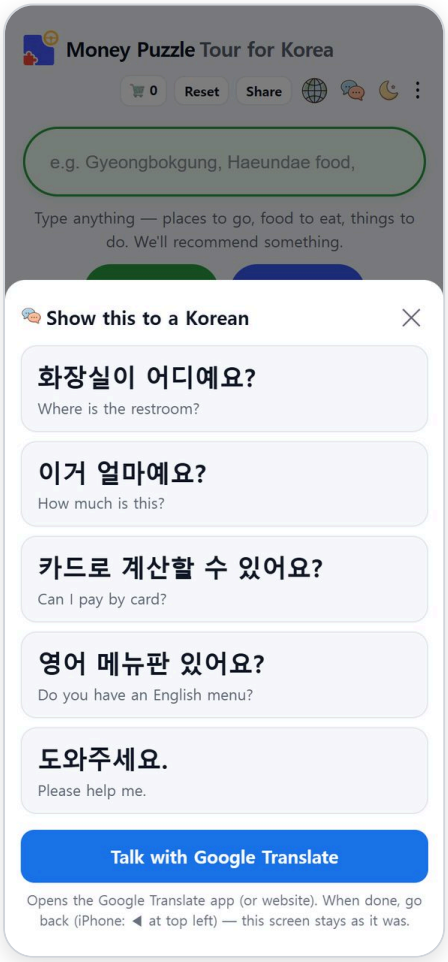

“Emergency” has call buttons for 119 (ambulance, fire) and 1330 (travel helpline, 24h in English), plus the nearest hospitals and pharmacies. Tap “Call” to phone directly.

43

Speech bubbles — translate a sentence

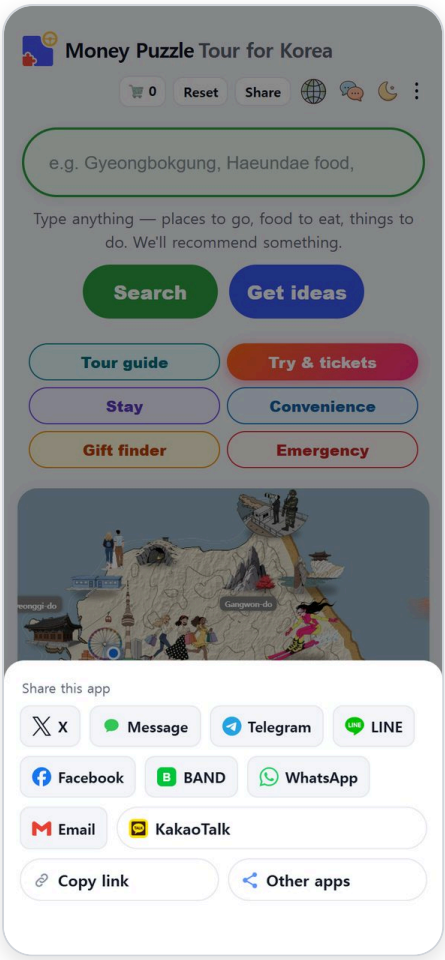

Type what you want to say in the search box and tap the speech bubbles in the top bar. It shows the sentence in large Korean (English if your screen is Korean) and reads it aloud. Show the screen to a local.

44

Phrase board

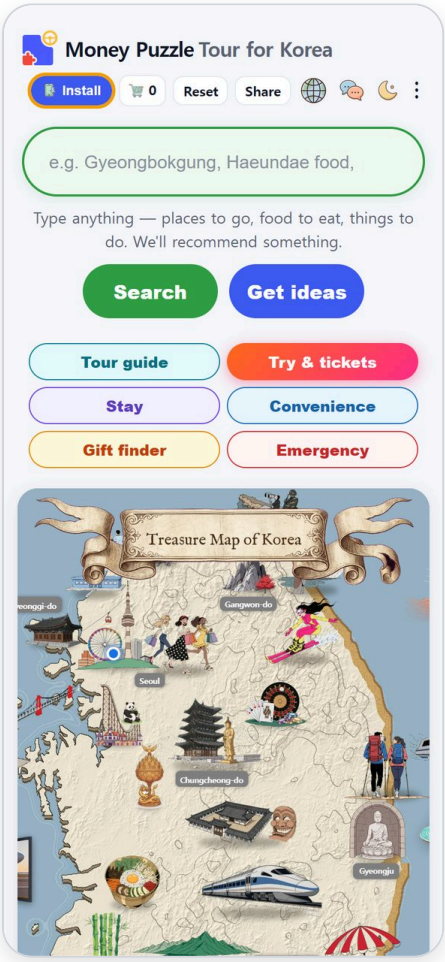

With the search box empty, the speech bubbles open a board of handy Korean phrases such as “Where is the restroom?”. Tap one to show it large, or use “Talk with Google Translate”.

45

Share

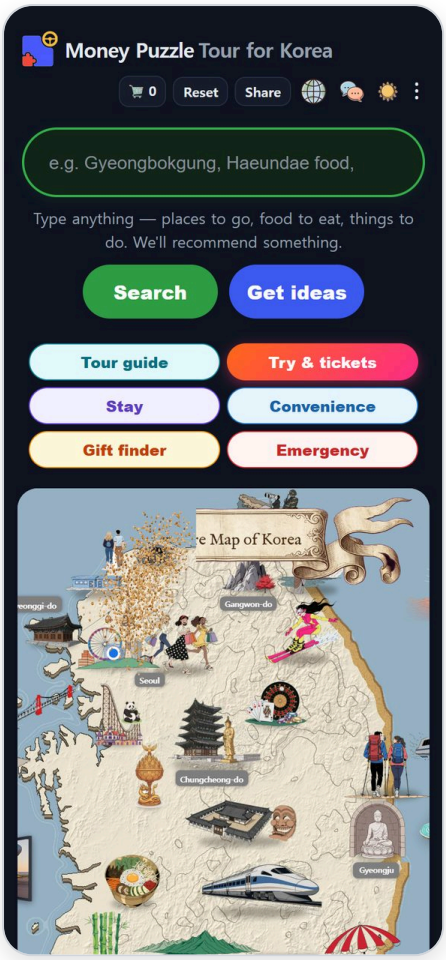

Tap “Share” in the top bar to send the app to friends by KakaoTalk, text message, email, Facebook, LINE, WhatsApp, Telegram and more, or copy the link. They can open it right away from the link or install it with “Install app”.

46

Install the app

On Android, tap “Install” in the top bar once and the app appears on your home screen. On iPhone, use Safari’s “Share → Add to Home Screen”. Installing doesn’t work inside KakaoTalk — open the link in Chrome or Safari.

47

Night mode

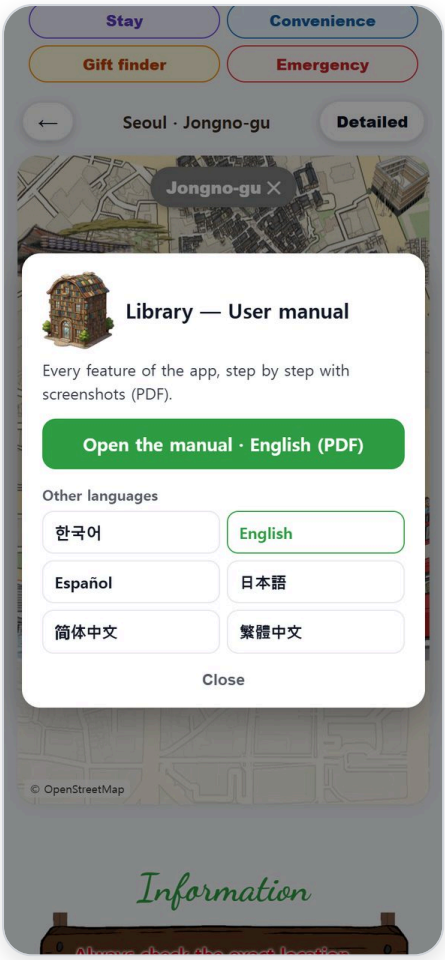

Tap the moon in the top bar for a dark screen, and the sun to switch back.

48

Information board

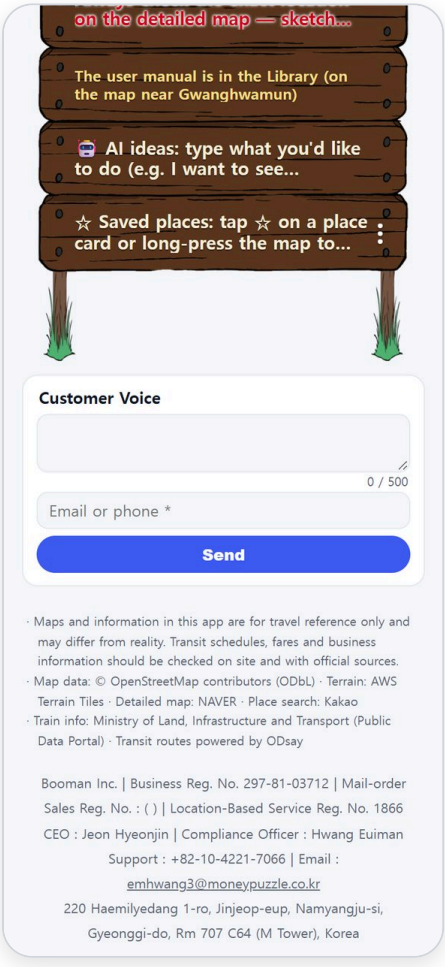

Please read the red text on the top plank of the board below the map — tap it to see it in full. The second plank points to the Library (user manual); the planks below are tips for using the app. Tap ⋮ for more.

49

The Library — user manual

Tap “The user manual is in the Library” on the board, or tap the book-built Library on the Jongno-gu / Jung-gu map of Seoul, to open this manual (PDF in 6 languages).

50

Customer Voice

Write any problem or wish, add your email or phone and tap “Send” — it comes straight to us.
